Objective

Motivated and dedicated Final-Year Electronics and Communication Engineering (ECE) student with strong knowledge of Embedded Systems, IoT, Microcontrollers, and Programming. Possessing hands-on experience in embedded system design, circuit simulation, sensor interfacing, and hardware-software integration through academic projects and internships. Proficient in C, Embedded C, Python, and Linux with a keen interest in developing innovative embedded solutions. Seeking a full-time role as an Embedded Software Engineer or Embedded Systems Engineer where I can apply my technical skills, contribute to product development, and grow professionally in a challenging and technology-driven environment.

Education

- Prince Shri Venkateshwara Padmavathy Engineering College** 2023-2027
B.E Electronics and Communication Engineering
CGPA : 8.45
- Infant Jesus Matriculation Higher Secondary School - HSC** 2023
76%

Skills

- Embedded system : Microcontroller (PIC/8051/Arduino)
- Programming : Python,C,Embedded C ,Linux OS
- MySQL databases, Internet of things , Electronics : Digital Electronics,PCB(basics)
- Soft Skills :
- Problem solving
- Teamwork
- Communication

Internships

- Pumo Technovation Pvt lmt - Embedded System
4/06/2025-30/06/2025

Courses And Certifications

- NPTEL , Analysis and Design Principles of Microwave Antenna ,Elite - 60%
- IIC 2024-2025 , Advanced Level (Innovation Ambassador)
- IIT Madras LEAP Program - Human Posture control and Emergency Alert through Smart Watches
- Visual Debugging with MPLAB Data Visualizer - Microchip University
- Embedded for Beginners - NIELIT Calicut
- Embedded System - Internshala
- Hackforge 1.0 Hackathon - Solar System using ARVR
- Workshops : PCB Design and Fabrication - VIT ,Chennai
Ethical Hacking - Prince Shri Venkateshwara padmavathy engineering college , Ponmar

Projects

- Fall detection with voice alert Emergency System**
This project enables elderly individuals to place emergency calls to caregivers using voice recognition through smartwatches. The system detects predefined voice commands and instantly alerts the caretaker with the user's location and status.
- Whistle Counting Cooker**
A smart cooking system that automatically counts pressure cooker whistles and alerts or switches off the stove to prevent overcooking and ensure safety.
